Chicago, IL | (217) 721-7455 | [shambhaviipatil@gmail.com](mailto:shambhaviipatil@gmail.com) | [LinkedIn](#)

## SUMMARY

Entry-level product manager with proven strengths in market and competitive analysis, user research, and UX enhancement. Led analysis across 20+ dealer platforms at Pixo Tech, identifying critical feature gaps and designing AI-driven concepts projected to boost upsell revenue by 20%. Skilled in developing strategic roadmaps and collaborating with engineering teams in Agile environments.

## EDUCATION

### University of Illinois Urbana-Champaign, Gies College of Business

Aug 2024 - Aug 2025

Master of Science, Engineering Management (STEM)

Champaign, Illinois

- **Coursework:** Agile Software Development, UI/UX Design, Project Management, Decision Analytics, Marketing Management, Technology Strategy

### Symbiosis International University

Jul 2019 - Jun 2023

Bachelor of Technology, Information Technology

Pune, India

## EXPERIENCE

### Pixo Tech

May 2025 - Aug 2025

Intern, Product Consultant

Champaign, IL

- Led competitor, UI/UX, and pricing analysis across 20+ dealer platforms using Tableau and wireframing tools, identifying 15 critical feature gaps and recommending three UX changes projected to reduce user drop-offs by 25% within six months
- Designed machine learning-driven feature concepts, including VIN-level advertising and NLP-powered parts search, estimated to increase dealer upsell revenue by 20% and reduce service downtime by 15% in pilot markets.
- Delivered a three-year product roadmap that integrated pricing, AI tools, and analytics capabilities, built with Tableau dashboards and wireframes; secured stakeholder alignment and established a scalable foundation for expanding beyond Project J dealers into adjacent markets by 2027

### AutomationEdge Technologies

Dec 2022 - Jun 2023

Intern, Product Management

Pune, India

- Analyzed 6 RPA competitors using Gartner reports, identifying AI document processing gaps; developed 15+ battlecards, influenced 3 product roadmaps priorities, and increased win rate by 18% in enterprise RPA deals.
- Fixed engineering-UX misalignment on chatbot integration by leading 8 story mapping sessions, defining cloud solutions in Jira tickets, cutting rework by 40% and delivery time by 3 weeks.
- Designed and tested UX improvements, creating 12+ Figma prototypes and running 6 usability tests, which enhanced user satisfaction and streamlined navigation

### The Akshaya Patra Foundation

Jul 2021 - Nov 2021

Intern, Product

Pune, India

- Addressed 35% delayed deliveries and \$18K/month fuel overruns by leading the ideation and MVP development of an in-house GPS fleet tracking system using networking solutions, improving fleet visibility and operational efficiency.
- Validated market demand and usability, conducting 50+ interviews with fleet managers and drivers, running A/B tests, surveying 120 clients, and publishing research findings internally, revealing 82% willingness to pay for ETAs.
- Created and tested interactive prototypes in Figma, leading to a 25% drop in navigation errors and a 30% faster route planning time by improving the map UI based on user feedback.
- Developed and launched a functional MVP in C++ with a live tracking dashboard, SMS alerts, and analytics to monitor 8 key performance metrics-including time-to-first route optimization-which enabled real-time operational decision-making for 120+ users.

## SKILLS

- **Product & Strategy:** Product Lifecycle Management (PLM), Product Roadmapping, Requirements Prioritization, Market & Competitive Analysis, Business Modeling, Go-to-Market (GTM) Strategy, Customer Segmentation, User-Centric Design, Stakeholder Management
- **User Research & UX:** Qualitative & Quantitative Research, Customer Journey Mapping, Usability Testing, Wireframing, Prototyping
- **Data Analysis & Visualization:** SQL, Python, Tableau, PowerBI, R, Amplitude
- **Technical & Tools:** APIs & Integrations, Agile, Scrum, Figma, InVision, Balsamiq, Jira, Confluence

## CERTIFICATION

- **Certified Scrum Product Owner (CSPO®):** Scrum Alliance
- **Insurjo - Product Management Principles:** The Product Folks
- **Software Processes and Agile Practices:** University of Alberta (Coursera)

## PROJECTS

### Alcohol Consumption Trends in the U.S.

May 2025

- Built an interactive Tableau dashboard analyzing alcohol consumption across all 50 U.S. states over a decade, highlighting key trends such as doubling of online alcohol sales post-pandemic, using calculated fields, geospatial mapping, and parameter controls to uncover behavioral and regional insights.

### Duolingo Design Challenge

May 2025

- Led a 2-week user research sprint, conducting 10+ targeted interviews and distributing structured surveys to uncover core engagement gaps in Duolingo's learning experience.
- Designed and prototyped a conversational AI feature in Figma to address key user concerns around limited speaking practice and one-dimensional learning, ensuring full compliance with Duolingo's brand and UI standards.

### Jell-O Brand Revitalization

Nov 2024

- Repositioned iconic CPG brand using 5Cs, SWOT, and PESTEL to identify declining market relevance.
- Proposed JELL-O PLAY edible slime through whitespace analysis and iterative concept validation and created go-to-market plan focused on digital campaigns, sustainable packaging, and zero-sugar lines.
